SHAYAN NOORI

Front-end Developer

+98 993 779 4928 nri.shayan@gmail.com shayan-noori.ir Sari, Mazandaran, Iran

SUMMARY

Front-end Developer with **3 years** of experience in building high-performance **Single-Page Applications SPAs)** using React.js and Next.js and improving user experiences. Skilled at solving problems and bringing complex designs to life, whether working on my own or as part of a team. Passionate about continuous learning, **optimizing SPAs performance** and improving their looks. I also collaborate effectively with designers and back-end developers to ensure seamless integration and **user-centric experiences**.

EXPERIENCE

Front End Developer

Apanco 02/2023 - 05/2025 Sari, Mazandaran

Developed a user-friendly web application using React.js to keep track of teachers, students and courses.

- **Streamlining API Interactions:** Successfully integrated over 150 RESTful APIs while leveraging TanStack Query for efficient form submissions and data handling, which lead to reduced API call errors by 15%.
- **Building Scalable Front-End Architectures:** Designed and implemented scalable front-end solutions, improving long-term maintainability and reducing technical debt by 30%.
- **Improving Team Collaboration:** Acted as a liaison between design and back-end teams to ensure alignment on functionality and aesthetics, achieving a 100% on-time delivery rate for UI updates.
- **Solving Complex Technical Challenges:** Resolved a persistent memory leak in a React application by identifying and fixing improper cleanup of event listeners and subscriptions, reducing memory usage by 35% and preventing application crashes.
- **Team Collaboration Using Agile Methodologies:** Collaborated with other developers in an Agile environment, participating in sprint planning and daily stand-up meetings to deliver features 25% faster.

React JS Developer

Sepehregan Academy 07/2022 - 01/2023 Sari, Mazandaran

Developed a monitoring web application using React.js to assist beginners on their programming career.

- **Implementing Reusable and Maintainable Components:** Built modular and reusable React components, improving development efficiency and reducing code duplication by 15%.
- **Optimizing App Performance:** Enhanced application performance by using Context API and TanStack Query and optimizing renders, resulting in a 20% reduction in latency specially on weaker devices.
- **Collaborating with UI/UX Teams:** Partnered with designers to create user-friendly, responsive interfaces using Tailwind CSS, ensuring consistency across each screen size.
- **Creating Interactive Admin Panel:** Developed an interactive and responsive Admin panel with Vuexy Admin Template and React-strap, boosting user engagement by 15%.

SKILLS

Next.js · React.js · TypeScript · JavaScript · TailwindCSS · CSS3 · HTML5 · AntDesign · DaisyUI · Shadcn · React (TanStack) Query · React-router · React-hook-form · Formik · Zod · Yup · Redux Toolkit · Zustand · Context API · Three.js · Framer Motion · GSAP · Vite · Jira · Git · Github · CI/CD

KEY ACHIEVEMENTS

Developed Scalable SPAs

Designed and delivered Single-Page Applications (SPAs), achieving cross-browser compatible Apps and 40% improvement in load times and ensuring seamless scalability to support increased user traffic.

Quality Code with Maintainability

Wrote clean, modular, and reusable components adhering to industry best practices, reducing debugging time by 25% and improving overall maintainability for future developers.

Eliminated Bottlenecks

Identified and resolved complex performance bottlenecks by utilizing associated Devtools and efficient rendering techniques, resulting in up to 35% boost in app responsiveness.
